ABOUT

AI & Data Science undergraduate focused on AI engineering, production ML systems, and LLM-powered applications using Python, FastAPI, Docker, and modern AI APIs. IEEE-published author at ICISS 2026.

EDUCATION

M Kumarasamy College of Engineering <i>B.tech. Artificial Intelligence and Data Science</i>	Aug 2022 – Mar 2026 <i>CGPA: 7.25 (Scale: 10)</i>
Velammal Matric. Hr. Sec. School, Theni <i>Computer Science and Mathematics</i>	June 2022 <i>Percentage: 70%</i>

SKILLS

Languages: Python, SQL
AI & ML : LLMs, RAG Systems, CatBoost, Scikit-learn, NLP, Whisper STT
Backend & APIs: FastAPI, Flask, REST APIs
Databases: MySQL, PostgreSQL, Notion API
Deployment & Tools: Docker, Google Cloud Run, Git, GitHub, Streamlit

EXPERIENCE

Database Administrator Intern IMET Tooling India Pvt Ltd, Coimbatore	Jul 2024 – Mar 2026
- Designed and managed MySQL database schemas for a B2B bulk order management system, ensuring data integrity and performance - Developed and optimized SQL queries and supported backend operations in a XAMPP-based environment - Collaborated with cross-functional teams, contributing to system integration, testing, and debugging	

PUBLICATIONS

AI-Driven and NLP-Powered Multilingual Tutor for Indian Languages Vaishnavi J., Prasanth K. R., Nithish Kumar R. , Pragadheesh M., Haresh K. <i>8th International Conference on Intelligent Sustainable Systems (ICISS 2026), IEEE-affiliated</i> Paper ID: ICISS-0103 Accepted	Mar 4-6 2026
--	--------------

PROJECTS

- AI Personal Assistant System** | Python, Whisper, Ollama, Notion API
- Built a voice-enabled AI assistant integrating Whisper STT, LLM routing, and persistent memory workflows
 - Integrated Notion APIs for contextual memory storage, diary generation, and retrieval-based workflows
 - Developed modular Python pipelines for speech processing, memory retrieval, and LLM-powered responses
- Food Delivery ETA Prediction** | Python, CatBoost, Docker, Google Cloud Run
- Built and deployed an end-to-end ML pipeline for food delivery ETA prediction using production inference workflows
 - Benchmarked CatBoost, XGBoost, Random Forest, and LightGBM models with CatBoost achieving best performance (R^2 : 0.84)
 - Deployed the Dockerized ML inference system on Google Cloud Run
- Semantic Progress Tracker (In Progress)** | FastAPI, PostgreSQL, pgvector, OpenAI API
- Building a production-style RAG memory system using vector retrieval and LLM-powered workflows
 - Integrating embeddings, semantic search, and Notion APIs for contextual progress tracking

CERTIFICATION

IBM AI Developer Professional Certificate <i>IBM (Coursera)</i> Covered generative AI, prompt engineering, Python, Flask, and AI application development.	Nov 2024
